

# Q20

## Scanbox

Plug & Play

Quick  
Response

High  
Compatibility

- » Stylish design and easy operation
- » No plug-ins required, plug and play
- » Excellent code scanning capability for various application scenarios

## Technical Specifications

|                                                                                                                   |                                                                              |
|-------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------|
|  <b>OS Support</b>             | Windows, Mac, Android, Linux                                                 |
|  <b>CPU</b>                    | 32-bit Security Processor                                                    |
|  <b>Memory</b>                 | RAM: 512KB, FLASH: 512KB                                                     |
|  <b>Image Sensor</b>           | CMOS                                                                         |
|  <b>Resolution</b>             | 640x480                                                                      |
|  <b>Motion Tolerance</b>       | 2D 100mm/s, 1D 50mm/s                                                        |
|  <b>Lighting Mode</b>          | Lightless Mode, Scan Mode, Everbright Mode                                   |
|  <b>Power Input</b>            | DC 5V/250mA                                                                  |
|  <b>Sensitivity</b>            | Pitch $\pm 40^\circ$ , Roll $360^\circ$ , Yaw $\pm 30^\circ$                 |
|  <b>USB</b>                    | 1 USB Type-A interface (HID)                                                 |
|  <b>Reading Precision</b>      | 2D > 7.5 mil, 1D > 5 mil                                                     |
|  <b>Symbolologies</b>          | Code128, Code39, Ena-13, Ean-8, Upc-a, Upc-e0, Upc-e1, ITF, QR Code, Dm Code |
|  <b>Dimension &amp; Weight</b> | 100mm × 100mm × 64.5mm, 160g                                                 |
|  <b>Certification</b>          | CE, RoHS                                                                     |
