

# TY SoftPOS Solution

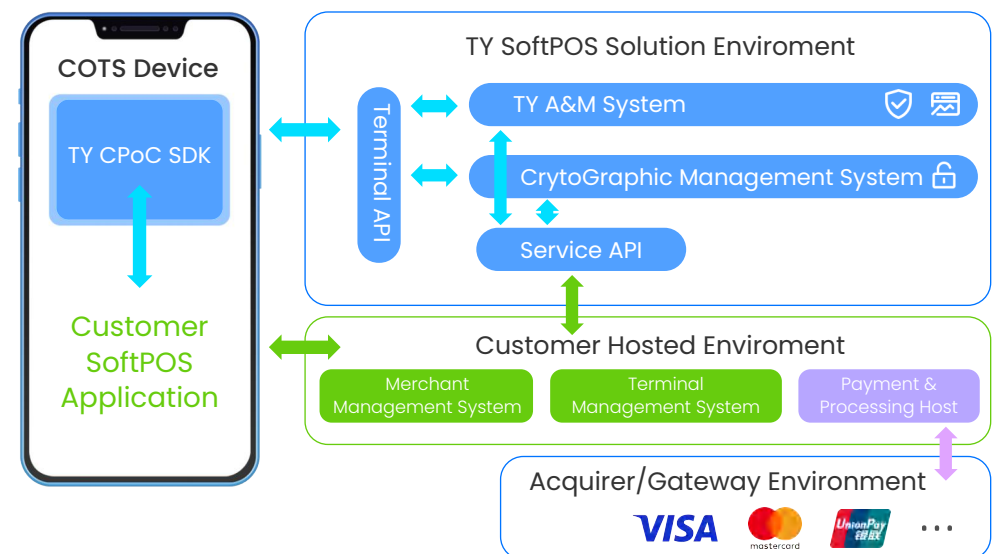

Turn your NFC-enabled Android device into a professional POS terminal for financial transactions.

## Introduction

TY SoftPOS Payment for Merchants is a fully certified solution that meets the latest functional and security requirements from Visa, Mastercard, and PCI SSC (including PCI CPoC and PCI DSS).

The solution enables users to securely accept all types of contactless payments, including EMV cards, NFC mobile wallets, and wearables, using their existing smartphone or smart mobile terminal.

# Service Platform

The TY SoftPOS service platform includes underlying support services, core systems, front-end services and back-end management web system for security configuration, attestation and monitoring.
